JOHN PERKINS and Charlie Cross, two negroes, renewed an old quarrel last Sunday at John Tutt's store in Todd county, called "Slip Up." Perkins fired two pistol shots at Cross, while the latter was trying to get a rock. The first shot took effect in Cross' arm, the second in the heart, killing him instantly.

MR. HENRY WILLIAMS, of Guthrie, Ky., is trying to demonstrate the profit in strawberry culture in that section. The crop this year was very slim, almost a failure and still the berries are as cheap as ever. He has sold in the Clarksville market \$175 worth from little over a half acre and will probably get \$200 worth from the patch, a half crop, which goes to Mrs. Williams for pin money.

THE Jackson homestead on Madison street, don't look much like a bachelors hall, a new fence in front setting out straight and lower down the hillside shows a perfect Eden of flowers surrounding the house and looks as if the fairies were hiding beneath the flowers but there is not a soul to disturb the peace of mind enjoyed by the bachelor brothers or frighten them from their lovely home. The boys however gladly welcome the ladies and they are not a few who call to see the flowers.

THE Baptist ladies' ice cream and strawberry festival at Mr. M. C. Pitman's Tuesday evening was liberally patronized. One of the managers said they were doing a "rushing business" and it appeared so from the way berries and cream disappeared just beneath love's melting eyes. The ladies however gave too much cream and berries for the price, to have made much money, but they were doing a wholesale business and will make up losses when they turn their attention to oyster soup.

REV. DR. W. A. CANDLER assistant editor of the Nashville Christian Advocate preached two sermons at the Methodist church Sunday, at 11 a. m. and 8 p. m., captivated the large congregation that anticipated his coming, by his eloquence and powers of reasoning, and especially his morning sermon on "Revelations" delighted every one.

Mr. Lewis G. Garnett, of Trigg county made a fine average of his crop this week at the Central Warehouse, for one hoghead he received over \$300. His average for 6 hogheads was 10.61.

In chronic diseases, medicines should be restoring, and not debilitating, in their action. The wonderful strengthening and curative effects, realized from the use of Ayer's Sarsapilla, sustain the reputation of this remedy as the most popular blood purifier.

THE Vicksburg Southrons and the Memphis Zouaves refused to march next to the "colored troops" in the Washington parade. Capt. Searles charges that DeLeon, the secretary, wrote to him "that we would not be associated in any way with the colored troops."

MR. JOHN BRADLEY & SON, have started their brick machine near the passenger depot, and are manufacturing a splendid lot of brick, and the cheapest ever sold in the market. They have gone down below the surface to the red clay which makes very hard red brick. The machine molds seventy per minute and presses in one and a quarter pounds more dirt than the hand mold. In a few days they expect to have their stone crusher, through which the dry dirt will first pass, grinding every little pebble or stone to powder, which will make the brick still better. The new house of Mr. J. B. Sensing, corner First and Commerce streets, now going up, is made of these brick and shows up the material well. With this new enterprise in full blast, there will be no scarcity of brick this year.

Scriven's Patent

Elastic Seam

DRAWERS

These Drawers conform strictly to the outline of the figure when standing at rest, and give ease and comfort, and are without that tightness of feeling necessarily produced by other garments.

One of the peculiarities of these Drawers is that the seams only being elastic, they allow a remarkably easy action in walking, as all the friction caused by motion is at once transferred to the seams, while the main fabric of the Drawers is allowed to retain its shape and position. Are provided with an improvement consisting of an Elastic Insertion at the inner and outer seams, which gives elasticity in movement and comfort in fit. The Drawers are cut in figure outlines and afford the wearer all the advantages of knit goods while retaining the superior comfort of woven fabric. The Patent Elastic Seam, which contains no rubber, retains its springiness and wears longer than the other portion of the garment. It makes the Drawers conform to the position of the wearer, and avoids any strain, no matter what attitude the body assumes.
